Why statistics?

To answer questions like. . .

- what's the probability that something occurs?

To answer questions like...

- what's the probability that something occurs?
- does X influence Y? How much?

To ensure correct inferences

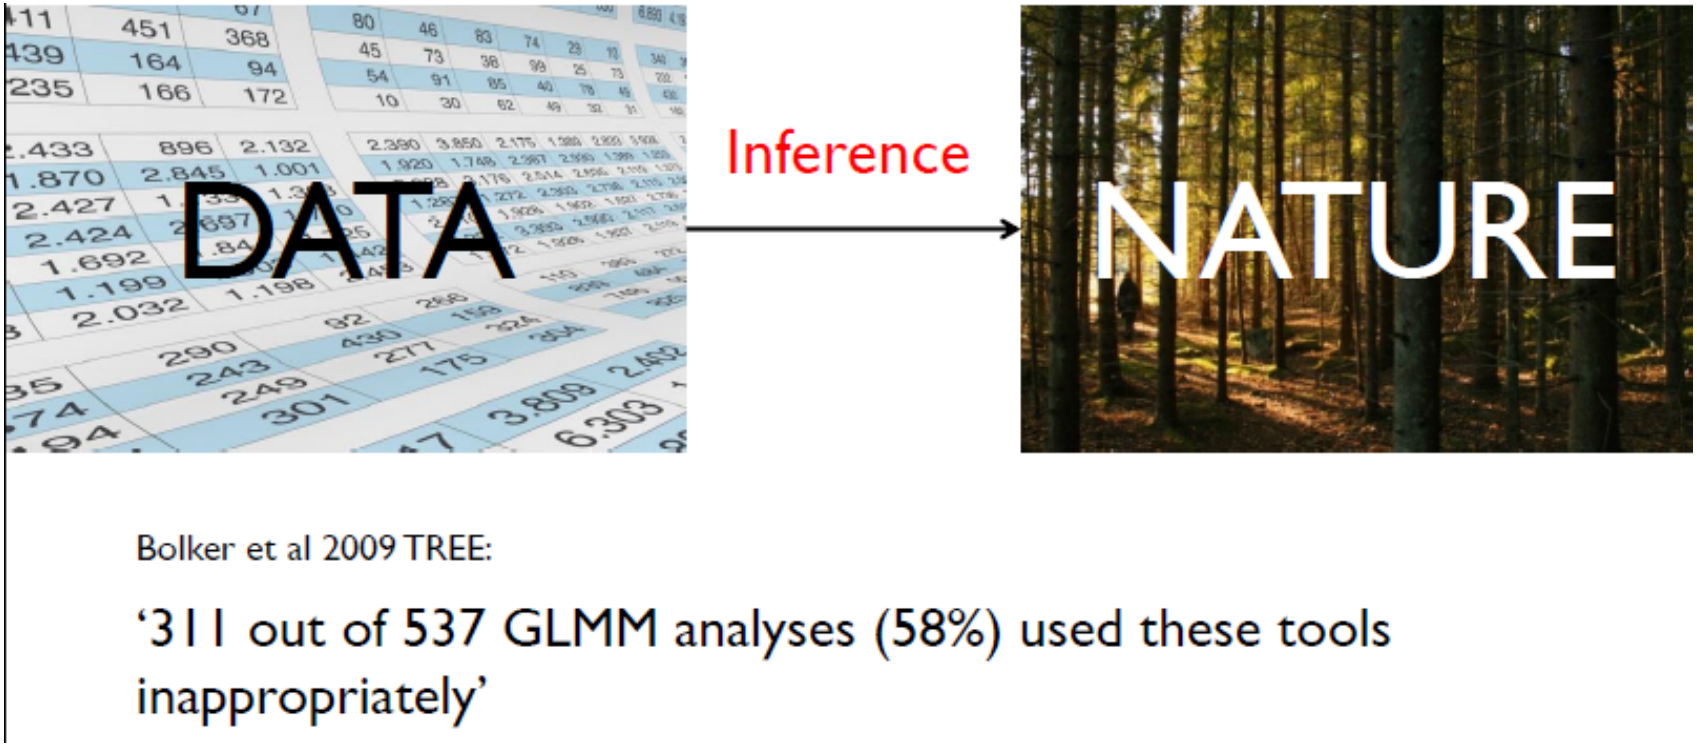

Figure 1:

To get answers to tough problems

For example...

Figure 2:

Inferring tree fecundity

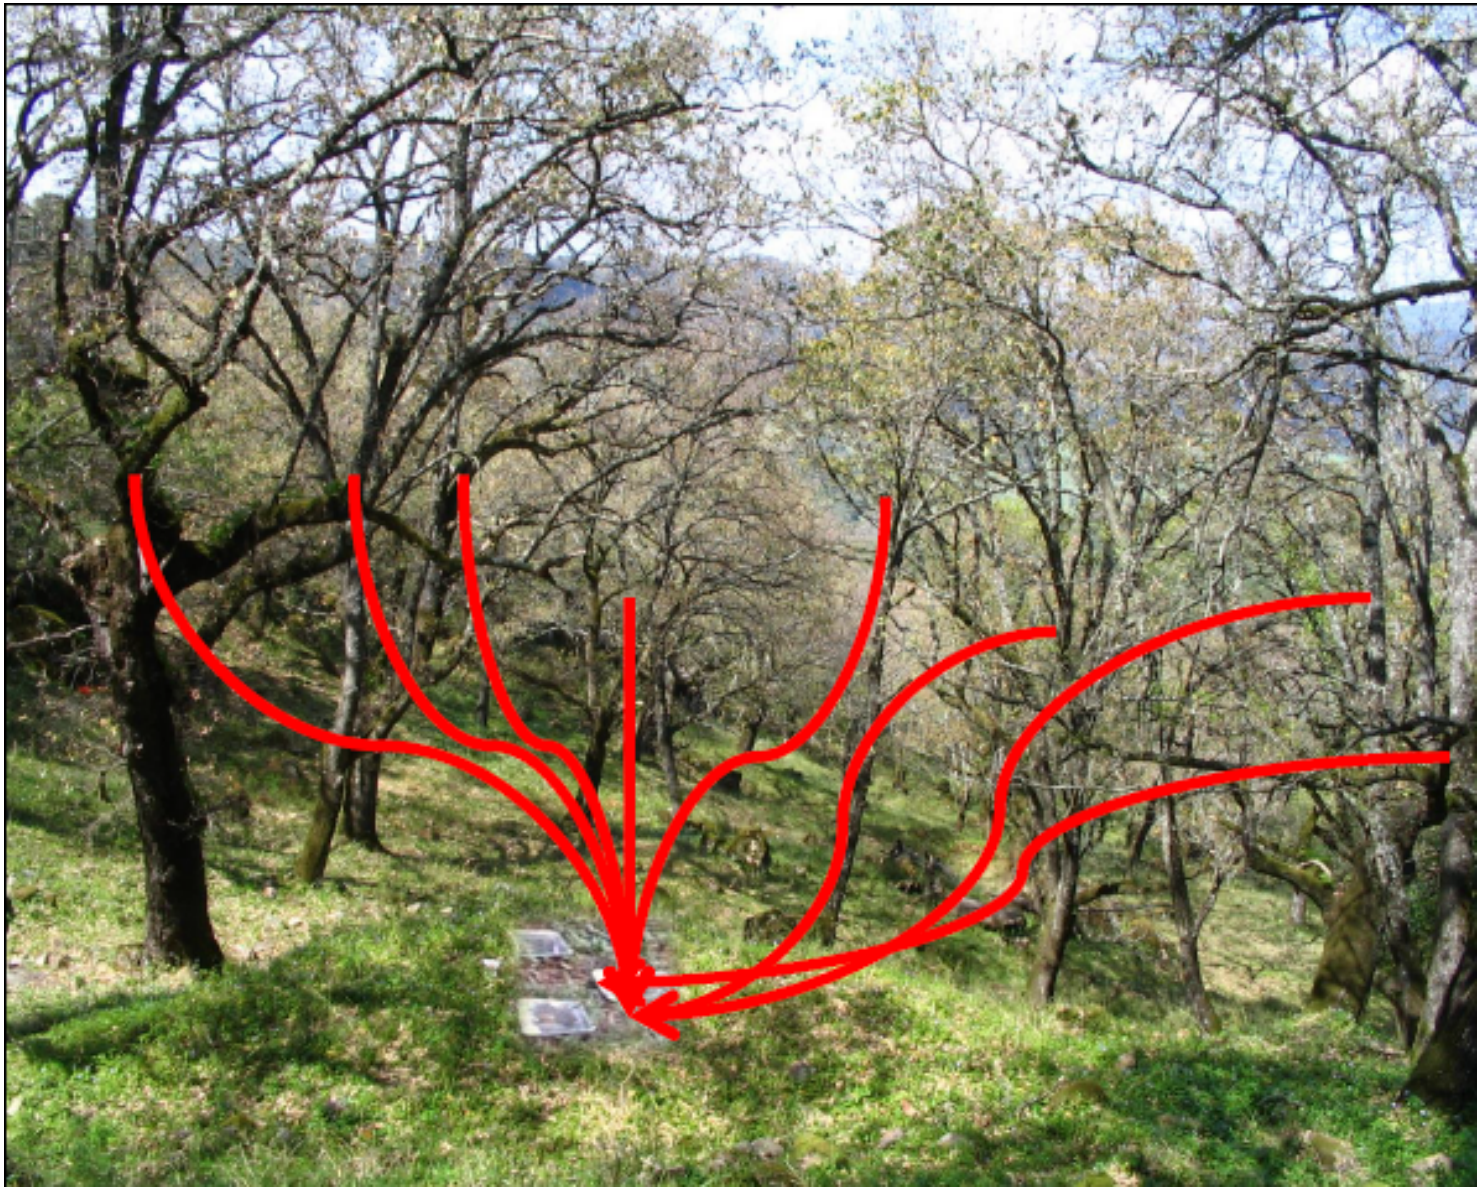

Figure 3:

Course goals

- **Understand** statistical inference

Course goals

- **Understand** statistical inference
- Avoid **misconceptions**

Course goals

- **Understand** statistical inference
- Avoid **misconceptions**
- Promote **good practices**

The purpose of models is not to fit data but to sharpen thinking

Sam Karlin
